THE DIFFERENCE

Fight Strong for Uterine Balance is powered by **Ralco** technologies that make it a highly effective natural solution for cows after a difficult calving.

POWERED BY U.S. PATENT NO. 10,512,664

Patented **Microfused Essential Oils** have smaller, more uniform droplets that stay stable over time and temperature. Protected droplets get where they are needed to facilitate and maintain intimate contact.

Competitor Oil:
Larger oil droplets in competitive oil products coalesce and become unstable

Microfused Essential Oils:
20 times greater surface area; 100 drops per 1 drop of competitor

Control

Microfused Essential Oils

These micrographs demonstrate the increased strength of the villi, which directly contributes to holding pathogens at bay.

Beneficial bacteria multiply when they feed on **Actifibe** crowding out pathogens for improved health and performance.
